Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Monday 22 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Increasingly cloudy overnight, mainly dry with some brighter spells Tuesday.

This Evening and Tonight:
Staying dry, but cloud increasing from the northwest across the region overnight. Becoming cold again, but any frost likely to be confined to higher ground. Minimum temperature 2 deg C (36 deg F).

Tuesday:
A rather cloudy day, with the best of any sunny intervals likely across eastern parts. Cloud may be thick enough to give the odd light shower across western hills. Maximum temperature 9 deg C (48 deg F).

Outlook for Wednesday to Friday:
Cloud and rain clearing southeast on Wednesday. Thursday colder with blustery showers, perhaps wintry across highest ground. Friday likely to be very unsettled with outbreaks of rain and strong winds.
